MR Challenge

• Data: A valid .geojson data or data from the Overpass query is necessary to create a challenge.

• Multiple challenges can be created inside a project and any mapper can edit after sharing with the team.

• Any editor can start the challenge using the **Start** button, which will lock the task.

- Using the right-up corner settings button, the mapper can modify the MR Tool's **layout** according to their convenience, any listed widget can be added and resized based on the user's choice. Use **Done Editing** to close the edit window.
- On the left side, under the **Instructions** widget, **the** mapper will find instructions for each task with questionaries (optional).
- **Completion:** This widget will help to start editing the flagged task using the **Edit** button and the task will open on the user-preferred OSM editor (i.e. JOSM, iD editor, etc)

After completing the edit in OSM data, any mapper needs to upload a changeset to save map edits in OSM.

Task's Resolutions - Editor

Not an Issue: There is no issue with the OpenStreetMap data. I Fixed: The editor/mapper has fixed the map-data issue Already Fixed: It was already foxed by other mappers before this review/edits. Too Hard/Can't Fix: This resolution will work when the editor/mapper does not fix the data using available resources.

Submitting a Task

Fill out the survey form to better understand the edits and Continue.

Task Instructions
Please review the way/474330628, It is detected as oneway from node/5351064611 to node/2876173907.
Please help us understand your edits
✓ Are you able to fix the issue?
If NO, what limits you to correct the data?

Click on the **Submit** button to submit the task.

Please Confirm
