

# 3/22/22 Design team meeting

When: 5:30pm - 7:00pm

Present: CZ, Dhvani, Flynn, Shrey, Shreya

## Agenda

- Introductions of each member
- Discussion of the current figma
- Get the frontend/backend running
- Go through the implementation and find features that are working/broken
- Start planning out teams

## Minutes

- Need to clean up the current figma document as its a mess
- Link to figma file: [Figma- UpDog](#)
- Grab the clean original plan for the designs and move them to a new page
- Compare the original designs with the actual coded designs
- Plan out teams as necessary
- Start planning the desktop/web design versions
- Looked at the project demo for team 2:  
<https://auckland.au.panopto.com/Panopto/Pages/Viewer.aspx?id=2dbc3e56-76d1-4a66-ae52-ae5e0178b0bd>
- Issues (priority 1=Nice to have, 3=Critical)
  - Search not implemented (Issue: #51) - 3 LARGE
    - Tag - 3
    - User - 3
    - post search - 1
    - Create search page - 3
  - User setting
    - Change banner doesnt work (setting page) (Issue: #119) - 2
    - Change profile image doesnt work (user profile - preset?) - 2
    - Upload files images - 2
    - Change bio not implemented - 2 LARGE
    - Save button doesnt work - 2
    - Can only access other users through url - 3
  - Dashboard page
    - App to give a random list of topics to follow to new users, so feed is not empty - 3
    - Cannot like - 3
    - Cannot comment -2 LARGE

- No comment concept in backend - 2
    - Cannot share (share post to follower) - 2
  - Activity page
    - Currently can only see posts, show like and follow things - 1
  - Write post
    - Internal error on making large posts (due with database type?) - 3
    - Hashtags (#) don't seem to have an impact - 3
    - Tag (@) inside a posts content dont work - 1
      - go to profile
    - Add embedded links - 1
  - Notification
    - Liked - 2
    - Shared - 2
    - Reply - 2
    - Real time upates - 1
  - Signout button - 3
  - Username in local storage - 1
    - If username is changed in localstorage and changed, nothing loads
  - Sign in page - 1
    - Authentications works but lazy implementation
  - Comments - 2
    - Comments are not a thing in the database
    - Frontend has comments
    - No way to create them
  - CI/CD - 3
  - Delete posts - 1
- Frontend Desktop responsive - 1
  - Add Desktop Nav bar, sidebar
  - Grid the cards for desktop
  - Add padding to stuff

CZ, Shrey, Flynn, Dhvani, Shreya  
 Issues Owner/Design

~~Design search page in figma (reuse post from dashboard) - CZ~~

**Figure out general algorithm for search**

- ~~Design User bio edit page - Dhvani~~
