

Everyday Climate Action™

At Doconomy we share a vision of enabling a sustainable lifestyle for everyone. We want to provide this by offering a banking service with a conscious, where your spending and your savings are measured by its impact on the planet, both negative and positive.

"A very tangible tool for anyone who wants to understand how to make a difference"

F&STCOMPANY

"Empowering people to take action in their everyday lives"

FINANCIAL TIMES

Track & measure CO2 emissions

The Åland Index calculates the carbon impact of every single transaction. It's powered by leading financial industry environmental, social and governance data.

[Read more](#)

Reduce your carbon footprint

DO helps you understand how the effect of your daily choices shape our world. Small changes can have great impact and DO makes it easier to live more sustainable.

[Read more](#)

Compensate for your impact

The carbon emissions you couldn't reduce can easily be compensated. Finance UN certified carbon offset projects or invest in fossil free sustainable funds for positive impact.

[Read more](#)

The white credit card

Our standard credit card that helps you track & measure and compensate for your carbon footprint everyday.

It has never been easier to DO the right thing.

[Read more](#)

The black credit card

Our premium card, with no premium benefits except for the world's first built-in CO2 emissions limit, creating the very foundation for conscious consumption.

All the tools you need for

Everyday Climate Action

Climate smart savings account

DO offers a climate smart savings account with an interest rate that includes climate compensation. Make your savings automatically work for good.

UN certified climate compensation

With DO you can compensate your carbon footprint in UN-certified projects that reduce, avoid or remove greenhouse gas emissions.

Track your daily carbon footprint

Use the DO card and track your CO2 footprint with the app. It uses the Åland Index to identify the CO2 impact of every transaction.

Release date: Summer 2019

Invest for positive impact

DO collaborates with innovative asset manager and offers investments in funds aiming for good returns for both you and the planet.

Release date: Summer 2019

Secure & encrypted banking service

Our security systems are of the highest standards and covered by the insurance deposit scheme at our partner bank Ålandsbanken.

The planet's only loyalty program

Offset credits can be used to compensate for the carbon footprint of your purchase. You can direct it to UN-certified carbon offset projects, or invest in sustainable funds.

Release summer 2019

We have 11 years to reduce carbon emission by 50%

Nathalie Green
CEO
Doconomy

"This is why we developed DO. We want to enable and encourage behavioral change. It should be easy to manage consumption and savings, as well as choose a more sustainable lifestyle.

Reducing emissions with 50% before 2030 is a huge undertaking. From now on, every action counts."

Now it's easier to do your part in saving the planet

SUSTAINABLE DEVELOPMENT GOALS

DO is a free, easy-to-use mobile banking service with one major difference. DO will track your CO₂ footprint and allow you to compensate for your impact.

With DO, you get access to the smart savings account which does good for both you as well as for the planet. The DO credit card helps you understand your CO₂ footprint, UN certified climate compensation projects, and investment funds that have a positive impact on people and planet.

Consumption will not end, but its devastating impact on the planet must.
