

## Alkymi test letter-style document for generic pipeline

Dear Reader,

The three paragraphs should be boxed separately by the visual model. The second page should appear like an addendum and contains two tables and two charts. The rest of this letter is Lorem ipsum.

## Appendix 1 of 1

This short paragraph is part of the appendix. Right it below are two tables. Even though they abut each other horizontally, they should be considered as two separate tables by the visual model. Below the tables are two charts, a line chart and a bar chart. They should be boxed as charts. Below the charts is a public domain picture of ducks in flight by Ohara Koson. The ducks should not be boxed; they should be free.
