Designed for highly illustrated scholarly publishing

Keeps your core content in human-readable non-proprietary plain text files

The Quire community represents a broad spectrum of institutions, both large and small, providing vital scholarship in the arts and sciences, including a growing number of scholars, curators, editors, designers, and web developers, and the digitally curious.

Institutions currently publishing with Quire:

Getty / Hong Kong University Museum & Art Gallery / Mills College Art Museum / Minneapolis Institute of Art / Leventhal Map & Education Center / San Jose Museum of Art / Materia Journal / Nelson-Atkins Museum of Art / Northwestern University Libraries / Duke University

Quire is flexible and feature-rich. It can be used in its most basic configuration, or it can be customized, adapting to a vast array of use cases.

Quire has been used to produce:

Collection catalogues / exhibition catalogues / journals / online exhibitions / proceedings volumes / research projects and reports / supplements to print publications / personal histories / guides and toolkits / catalogues raisonnés
