

Testfile apatest.typ with same same item. The only difference is that the Bibtext item type is incollection (which is correct) or inbook which is wrong in this case.

The first item (incollection) should be formatted as an edited book. The correct citation of an edited book is only achieved if the Bibtext item is inbook, which is wrong for this citation.

- (L.B. Alloy, K. Kelly, Mineka, et al., 1990)
- (L.B. Alloy, K. Kelly, Mineka, et al., 1990)
