

Project Template

This is a template encompassing installation-related sections for README.md. Adjust the template accordingly to incorporate contribution guidelines. **In case of any uncommon commands, please make explanation.**

Prerequisites

This project is built based on `Programming Language`. Make sure to use `Programming Language with version` before getting started. Make sure you have the following installed before proceeding:

- [Prerequisite 1](#)
- [Prerequisite 2](#)

Installation Steps

Choose one of the following options to install the project:

Option1: Manual Installation

TODO

Option2: Using Package Manager

TODO

Verification

To verify the successful installation, run the following comand:

```
# Insert command here
```

Usage

Basic Commands

Provide a list of basic commands or the most essential commands to run the project.

```
# Insert command here
```

Advanced Option

TODO

External Documents

Provide additional documents for users to explore the comprehensive documents, e.g., `INSTALL.md`, `WIKI`, `CONTRIBUTE.md` etc.

Version History

Help and Support

Provide FAQs and commonly encountered errors here. Also make reference to channels where you want to have interact with users.
